SCHOOL

A Local Criminologist Believes Such an Institution is

Needed.

EDITOR JOURNAL-In the forcible, if ipot polite expressions, of the peace officers of the State, the legislature is up against a problem worthy of consideration. It has vexed sheriffs, constables and justices and should be solved. They say Nevada needs a reform school and has needed it for some years. When asked why, they say that many cases come to them that will fit nowhere else.

A youth in need of punishment and correction for misdeeds is brought before the megistrate. A punishment should be inflicted. The only course open at the present time is to fine or imprison. The flue is not forthcoming and imprisonment is the site. native. To send a youth to the county benebrad ble driv ersteers or list criminals is repugnant to all peace Officers of experience and so much so that any way out of the difficulty is proferable.

The result is not estisfactory. The reprimend is not sufficient and the offender is again soon in the toils. He has not been so impressed that he considers the peace and dignity of the State of Neveda as a thing to be respected. Then he is in all likelihood sent to the county juil at an age when ripe to absorb every svil confirmed convicte can give him. Experienc teaches that many youths have thus gone to the bad and become a tax and charge upon society, who under other clam julce and other hot drinks at conditions would have become sectul citizens and sharers in the bardens of goverument.

In disquesting this matter Constable Lesper of this piece and Constable Golding of Wadsworth, with others, were united in the belief that a reform school is a great necessity. It was pointed out that the old prison walls enciosed ground enough for this purpose; that little money would provide school that would be almost, if not Hardware and Supply Co.'s. See them | quite, self-supporting by using the water power about to be purchased; on erimical charges and the mainten-

ence of the criminals. Our insens are better treated at they were abroad. It took the pracrical work to make many believe it go without a reform school and harry reckless youths into confirmed orim- stendily. MAGISTER.
